I was denied benefits multiple times, and I was forced to fight for my rights every step of the way. I was treated like a criminal, and I was made to feel like I was a burden on society.

But I refused to give up. I fought back, and I eventually won my case. But my victory was bittersweet. I had to go through hell to get what I deserved, and I know that there are countless other people who are still struggling.

That's why I wrote this book. I want to share my story with the world, and I want to help others who are fighting for their rights.

My book is a call to action. It's time for us to stand up and demand better treatment for people with disabilities. We need to hold the pharmaceutical industry accountable for their greed and corruption. And we need to create a more just and equitable world for everyone.
