Professor Doe examines the changing political and ideological dynamics that have influenced the Court's composition and decisions over time. He analyzes the interplay between the Court and the other branches of government, the role of public opinion, and the evolving understanding of constitutional principles.

Through a balanced assessment, Professor Doe sheds light on the ways in which politics, ideology, and activism have shaped the Court's development and continue to challenge its legitimacy.

A Call for a Return to Constitutional Originalism

In the latter part of the book, Professor Doe presents a compelling case for a return to constitutional originalism, arguing that the Court's current practice of judicial activism has led to an erosion of the Constitution's core principles.
